Goldstars juniors were out in force at this Sundays Daniel Bennett race which was run backwards to the usual course. There was a junior representative in every grade. In the Junior & E grade races there was Bradley and Daniel Rae as well as young Ryan Duncan and Zane Muir. In this race there were a few breaks and attacks early in the race but coming into the last lap Bradley Rae attacked over the slight uphill and gained a gap over the field which he held until the finish then there was Kerry a senior rider for 2nd, Daniel Rae 4th in the E grade, and then Zane Muir 1st to cross the line ahead of Ryan Duncan in the Juniors. In D grade we had Nick Bell who rode a great race and finished 4th in a tough field. In C grade we had our resident femme de fantastic Emily Roper, Troy Berman and Lachlan Devanny. It was a great race with all our juniors working attacking and finishing high up in the field, with Emily Roper finishing in 4th place. In the A and B combined race we had Hayden Roper and yours truly Jesse Kerrison, it was a fast race with an average of 43 km/h.

May I also note that all the juniors raced great with the gear restrictions making it a lot harder for juniors as we have to spin heaps while our racing opponents who are more often than not, mostly adults can just put it in a big gear and grind out the race. Overall all the Goldstars juniors had a great day of racing.
